# Pillar: A's Ballpark

Our soon-to-be new home on the Las Vegas Strip will not only be the future of A's baseball, but a year-round destination for locals and visitors alike. Designed to reflect the energy of the city, the ballpark will offer an intimate fan experience, climate-controlled comfort, and flexible spaces for concerts and a wide range of entertainment events. The vision for the project is to create a venue that brings people together on game days and beyond.

## Groundbreaking

We celebrated a major milestone with the official Groundbreaking of our future ballpark in Las Vegas on June 23, marking the start of construction on a new home for A's baseball and a transformative project for the community. The event brought together local officials, project partners, and community members. The Groundbreaking signaled our long-term commitment to investing in Las Vegas and supporting the city's growth and development.

## MMJV

As part of Craft Appreciation Week, we were proud to support Mortenson McCarthy Joint Venture with a series of on-site appreciation events celebrating the crews bringing the ballpark project to life. Throughout the week, teams were treated to donuts, bagels, and coffee; a shaved ice truck; and a BBQ lunch. These moments were a small way to say thank you to the skilled craft professionals whose hard work continues to drive progress every day.
